Chairman's statement

I am pleased to be reporting on the Group's annual results for the 52 weeks period ended 25 December 2022 and the comparative 52 weeks period ended 26 December 2021.

The Group comprises 54 restaurants: six dim t and 48 Wildwood restaurants.

It was hard to predict the challenges that we faced in 2022 would immediately follow what had already been extraordinarily difficult years during the pandemic. The Group delivered strong sales growth, despite the severe impediments of transportation strikes, the World Cup, and bad weather all coinciding with the most important trading period of the year. We have estimated the adverse sales impact of all these factors to be in excess of £0.65m. As reported in our Interim Results, the energy crisis and unprecedented inflationary costs suppressed the results further, significantly increasing our running costs.

We reopened two Wildwood restaurants which were closed during the pandemic, and we are now trading from 52 restaurants out of a total estate of 54. We also converted Wildwood Loughton into a dim t in November 2022 with results which have exceeded expectations. Dim t has proved to be a robust brand over the last few years due to both a rise in popularity for Asian food and also an increased demand for takeaway and delivery of this cuisine. Given the initial solid performance of this converted unit we are currently considering other opportunities to rebrand within our estate. We have started a process to sell the two restaurants that remain closed, and we will also consider the sale or surrender of other underperforming sites.

Delivery and takeaway have remained strong throughout the year but there has been a marginal shift towards dine-in. The sales performance for the start of 2023 has been better than initially expected, but it is still challenging. We believe that this is partially due to customers drawing upon personal savings built up during the pandemic and a resilience to conservative menu price increases however, whether this resilience continues, remains to be seen in the coming months. The Board expects the Group's profitability to continue to be impacted by both energy costs, which remain significantly higher than pre-pandemic levels, and also increasing food costs. The Group's expansion plan of opening additional sites will be reviewed once inflation and the economy have stabilised.

The Group repaid and cancelled its outstanding Barclays Bank facility of £1.1m as it was unutilised, and it was considered prudent given the increasing interest rate charges. Based on the Bank of England base rate at the time of cancellation, there will be an annualised interest saving of approximately £57,000. The Group still has a £250,000 overdraft facility.

As with previous challenges, the Group is confident it has a structure that can navigate the current macroeconomic headwinds.

Dividend

The Board does not propose to recommend a dividend (2021: £nil).

Future Trading

Performance to date is ahead of management expectations although, at this stage, it is difficult to predict the full extent of the cost of living crisis and input cost inflation and shortages. When the current energy cap reduces at the end of March 2023, with advice from our newly appointed energy brokers, we are adopting a revised strategy to reduce our energy costs. We expect our customers to continue to enjoy eating out and relish the social occasion at Wildwood and dim t but we will continue to focus on managing our cost base and increasing efficiencies within the business. We are living in

Chairman's statement

very unpredictable times, both politically and economically, and these no doubt will continue to be factors in the performance of the Group for the coming year.

Keith Lassman

Chairman
29 March 2023

Strategic report for the 52 weeks ended 25 December 2022

Business Review

Tasty operates two concepts in the casual dining market: Wildwood and dim t.

Wildwood

Aimed at a broad market, our 'Pizza, Pasta, Grill' restaurant remains the Group's main focus. Our sites are primarily based on the high street. However, our estate comprises a number of leisure, retail and tourist locations that have historically traded well, highlighting the broad appeal of the offering. Located nationally, mainly outside of London, Wildwood is currently open for business from 46 of the 48 Wildwood branded restaurants.

dim t

Our pan-Asian restaurant now trades from six sites, serving a wide range of dishes, including dim sum, noodles, soup and curry. This includes dim t Loughton, which was converted from a Wildwood and re-opened in November 2022. The brand has fared particularly well over the last few years due to a rise in its popularity and increased demand for takeaway. Given the success of Loughton we believe there are some opportunities to grow this brand within our existing estate.

Introduction

Recent years have been characterised by continuing uncertainty, and it has been difficult to accurately predict the extent or duration of disruptions. Against this turmoil, we have been reassured by the enduring demand for eating out and our focus remains on offering a great dining experience with significant time spent improving food quality and customer experience. Other than December 2022, when sales were impacted negatively by the World Cup and transportation strikes, overall sales performance of the re-opened estate has been ahead of 2019, which has been used as a fair comparison as both 2020 and 2021 were impacted by the pandemic.

We are conscious that demand may be favourable due to the savings built up over the pandemic and the real impact of the cost-of-living crisis may still materialise, however year-to-date performance in 2023 has been slightly better than expected. There has been a discernible shift from the early weekday trade to the weekend and we have avoided aggressive discounting and promotions, maintaining a competitive advantage through pricing and a value proposition.

We previously reported that the pandemic negatively impacted our city centre sites due to fewer commuters, tourists and theatregoers. The London sites are now performing better with the return of tourists and the theatre shows, and there has also been an uplift in lunch trade as people slowly increase the frequency that they attend the office.

Energy costs

In 2022, our energy costs rose substantially in line with many in the hospitality industry and often resulted in four times more cost than the 2019 equivalent. When the current energy cap reduces at the end of March 2023 with advice from our newly appointed energy brokers, we are adopting a revised hedging strategy to reduce our energy costs. While we hope that pressures on energy costs have peaked, we expect prices to remain higher than pre-pandemic levels and estimate this to be at least double that of historical costs. We are working on unit level energy efficiency improvements and selective Monday closures to reduce costs.

Strategic report for the 52 weeks ended 25 December 2022

Offering

We are constantly reviewing our menu and increasing the choice of options, including lunch and light options. With our newly appointed Head of Food and our central kitchen production we have significantly improved our food quality and consistency which is borne out by customer survey reports. With approximately three menu changes a year, we can adapt products to suit availability and changing tastes and we always review ways to offer vegan and gluten-free options. To ensure we are accessible to a broader consumer group, we have maintained a very low entry price point for both pizza and pasta for Wildwood and noodles for dim t - dishes which continue to be very popular with our customers.

People

We are pleased to report that as at 25 December 2022, we employed just under 1,100 people across the business, an increase of 100 from the previous year and a sign that the labour shortage seems to have stabilised. However, competition is still considerable for good-quality candidates, and we remain committed to ensuring the Group is a competitive, attractive and supportive environment in which to work.

Whilst we welcome the removal of the temporary increase of National Insurance of 1.25% introduced in November 2022, the increases in April 2023 of the National Living Wage and general inflationary wage pressures will inevitably result in higher labour costs, which will be impossible to absorb completely. We continue to be committed to improving labour efficiency through a focus on the trading day-parts, forecasting and scheduling.

A new recruitment system has been rolled out across the Group which will improve candidate selection and retention. We have undertaken a comprehensive review of our employee training and engagement which will both produce a better customer experience and also improve employee satisfaction and development. The full implementation of this project is expected to be completed in early Q2 2023.

We have strengthened our management structure and senior teams across all areas with particular investment in food, marketing and the learning and development team.

Suppliers

With the energy crisis impacting the whole economy we have seen inflationary increases across the board from food costs through to third party service providers. Thankfully, supply has been more consistent, although there have been some unplanned disruptions which have affected our major supply lines. However, Covid-19 taught us how to be agile and resourceful and we have suffered very little outages during the difficult periods.

Property

The Group has successfully regeared one lease and will continue to review current lease terms and also consider disposing of poorer performing sites. There are a few leases with termination provisions effective this year, which will allow us to either renegotiate terms or surrender the lease. The Group will consider expansion once the economy and energy market stabilise. Unfortunately, we expect some businesses will struggle to survive with their current estate, and there will be many opportunities to acquire good sites. There are some rolling restaurant refresh programmes which are ongoing but expansion and major refurbishments will not be considered until the second half of the year.

Strategic report for the 52 weeks ended 25 December 2022

Board Changes

As previously announced, Mayuri Vachhani will be stepping down from her position as Chief Finance Officer and leave the Group on 31 March 2023, to pursue other opportunities. The Board would once again like to thank Mayuri for her hard work and the contribution she has made to the business over the last five years.

Wendy Dixon was appointed as an independent Non-executive Director in June 2022. She also holds the role of Chief Growth Officer for M&C Saatchi Group, and we are delighted to have her on our Board. In addition, Harald Samúelsson, who joined the Board in May 2021, is permanently relocating to Spain from 1 April 2023 and will revert to his previous position as an independent non-executive Director. Harald Samúelsson has over 20 years of experience in the UK restaurant industry.

Current trading and outlook for the coming year

Performance to date is ahead of management expectations, although at this stage, it is difficult to predict the full extent of the cost of living crisis and input cost inflation and shortages given the level of uncertainty that still exists in the industry and economy in general. We expect our customers to continue to show their loyalty towards our brands and we believe that our new marketing initiatives and websites will help grow a wider customer base.

Financial review

Highlighted Items

The Group recognises a number of charges in the financial statements which arise under accounting rules and have no cash impact. These charges include share-based payments and impairments to fixed assets. The above items are included under 'highlighted items' in the statement of comprehensive income and further detailed in Note 5. These items, due to their nature, will fluctuate significantly year-on-year and are, therefore, highlighted to give more detail on the Group's trading performance.

Full year results and key performance indicators

The Directors continue to use a number of performance metrics to manage the business but, as with most businesses, the focus on the income statement at the top level is on each of sales, EBITDA before highlighted items, and operating profit before highlighted items compared to the previous year. All key performance indicators that adjust for highlighted items do not constitute statutory or GAAP measures.

Strategic report for the 52 weeks ended 25 December 2022

The table below shows key performance indicators both before and after IFRS 16:

	Post IFRS 16 52 weeks ended 25 December 2022 £'000	Pre IFRS 16 52 weeks ended 25 December 2022 £'000	Post IFRS 16 52 weeks ended 26 December 2021 £'000
<i>Non-financial</i>			
Sites at year end	54	54	54
Open sites	52	52	50
Sales	44,027	44,027	34,909
EBITDA before highlighted items	2,621	(2,633)	7,991
Depreciation of PP&E and amortisation	(1,667)	(1,726)	(1,300)
Depreciation of right-of-use assets (IFRS 16)	(2,641)	-	(2,579)
Operating (loss)/profit before highlighted items	(1,687)	(4,359)	4,112

Sales were up 26% on the corresponding period which was impacted by restricted trading to £44.0m (2021: £34.9m) and EBITDA was £2.6m (2021: £8.0m). The EBITDA loss before highlighted items and IFRS 16 adjustments was £2.6m (2021: £3.9m profit).

Operating loss before highlighted items (see Note 5) was £1.7m (pre-IFRS 16 equivalent: £4.4m loss, 2021: £4.1m profit).

The impact of the implementation of IFRS 16 “Leases” from 2020 has resulted in both depreciation on Right-of-use (“ROU”) assets for leases and also the interest charge on lease liabilities being greater than the charge for rent that would have been reported pre-IFRS 16; the net impact on the reported loss for 2022 is £0.3m (2021: £0.9m). We have reviewed the impairment provision across the ROU assets and fixed assets and have made a net provision of £2.3m (2021: £0.6m).

After considering all of the non-trade adjustments, the Group reports a loss after tax for the period of £6.4m (2021: £1.2m profit after tax). Net cash inflow for the period before financing was £2.8m (2021: £7.3m inflow) and is driven by a net cash inflow from operating activities of £4.4m (2021: £7.8m).

As at 25 December 2022, the Group had an outstanding bank loan of £nil (2021: £1.25m) after repaying the Barclays Bank facility in full in June 2022. Cash at bank at the end of the period was £7.0m (2021: £11.0m). Net cash after outstanding bank loan at the balance sheet date was £7.0m (2021 – net cash £9.8m). Capital investment increased to £1.6m (2021: £0.5m).

Strategic report for the 52 weeks ended 25 December 2022

Principal risks and uncertainties

The Directors have the primary responsibility for identifying the principal risks the business faces and for developing appropriate policies to manage those risks.

Risks and uncertainties	Mitigation
<p>Covid-19 New strain of Covid-19 impacting staff, restaurants and supply.</p>	<p>While the impact of Covid-19 does not appear to be impacting day to day business we continue to be vigilant and will follow guidelines where relevant.</p> <p>Management became adept at managing cost and revenue through lockdowns and restrictions and are flexible at localised closures due to Covid-19 outbreaks and/or shortages of staff.</p> <p>Outbreak protocols have been established for staff, restaurants, and suppliers and will be implemented where necessary.</p>
<p>Cashflow and liquidity The impact of cost-of-living crisis and other trading conditions on cashflow and liquidity</p>	<p>Cash preservation has been a key focus over the last few years. The Group monitors cash balances and prepares regular forecasts which are reviewed by the Board. These forecasts include our best estimates and judgements based on currently available information and the current environment. In addition, management will apply sensitivities to assess the impact of actual results or events impacting on future cash flows.</p> <p>The bank facility of £1.25m secured to strengthen the Group's balance sheet and provide additional working capital, was drawn down in full in January 2021 but remained unutilised and was repaid in full in June 2022. The Group also has an unutilised £250,000 overdraft facility.</p>
<p>Utilities and Cost of Living Crisis</p>	<p>The biggest challenge faced by the Group, and many other businesses, is the increase in utility prices. We have endeavoured to reduce usage by focusing on consumption and efficiency; however, this does not offset the increases over the last 12 months. We will work with our energy broker to fix contracts as appropriate and have recently agreed new gas and electricity contracts.</p> <p>The impact of this and the cost-of-living crisis will impact the economy and while we have reviewed our menu prices to counteract the impact of some inflationary pressures, we have maintained our entry level of pizza and pasta at Wildwood and noodles at dim t.</p>
<p>Market Conditions and "Brexit" Economic uncertainty and impact of the UK leaving the European Union</p>	<p>Brexit has impacted food and drink primarily in the form of cost inflation and shortages of certain products.</p>

Strategic report for the 52 weeks ended 25 December 2022

<p>("Brexit") could reduce customer confidence / spending.</p>	<p>We work closely with our suppliers on assured supply and regularly re-tender prices. To minimise the impact of food cost increases we consider menu engineering and review recipes.</p>
<p>Competition The casual dining market faces new competition on a regular basis.</p>	<p>To mitigate this risk, we continue to invest in and renew our offering whilst maintaining accessibility, staying committed to quality and the overall customer experience.</p> <p>We constantly review marketing initiatives to ensure that we remain relevant to our consumers and ahead of the competition. We review performance and success whilst exploring new opportunities.</p>
<p>People Loss of key staff and inability to hire the right people in a competitive labour market.</p>	<p>We have continued to focus on selection, induction, training and retention of our employees. The Group has made significant improvements in its selection process, onboarding training programmes and career development. New HR and recruitment systems have been established and proposed to provide consistent and swift support to all colleagues. We have also strengthened our teams.</p> <p>The Group offers competitive remuneration and is reviewing its overall benefits package.</p>
<p>Food standards and safety Failing to meet safety standards</p>	<p>The Group engages in regular internal and external compliance audits to ensure all sites are complying with regulations. Job-specific training that covers relevant regulations is provided to all staff on induction and whenever else necessary. Online reporting systems are utilised on a daily basis to gather relevant information on compliance.</p> <p>The Group regularly reviews the latest Government guidelines and best practice regarding allergens. The Group's activities are subject to a wide range of laws and regulations, and we seek to comply with legislation and best practice at all times.</p>
<p>Supply Chain A major failure of a key supplier or distributor could cause significant business interruption.</p>	<p>The Group monitors suppliers closely. In the event of a failure by a key supplier we have contingency plans in place to minimise disruption and where possible, we maintain buffer stock of high-risk products.</p>

On behalf of the Board.

Daniel Jonathan Plant
Chief Executive Officer

29 March 2023

Report of the directors for the 52 weeks ended 25 December 2022

The Directors present their report together with the audited financial statements for the 52 week period ended 25 December 2022 (comparative period 52 weeks to 26 December 2021).

Throughout the year, in performance of its duties, and in compliance with Section 172 of the Companies Act, the Board has had regard to the interests of the Group's key stakeholders (such as employees and customers) and taken account of the potential impact on these stakeholders of the decisions it has made. In order to comply with Section 172, the Board is required to include a statement setting out the way in which Directors have discharged these duties during the year. Details of how the Board had regard to the following S172 Matters are as follows:

S172 Matters	Specific examples
1. The likely consequences of any decision in the long term	<ul style="list-style-type: none"> • Our corporate governance framework as described in this annual report • Communications with our shareholders through our website, circulars, AGM and post results investor meetings
2. The interests of the Group's employees	<ul style="list-style-type: none"> • Employee engagement through newsletters, communication tools, surveys and career development opportunities including apprenticeship • Established whistleblowing and safeguarding procedures
3. The need to foster the Group's business relationships with suppliers, customers and others	<ul style="list-style-type: none"> • Building long-term relationships with suppliers • Encouraging and responding to customer feedback through websites, social media and our feedback system
4. The impact of the Group's operations on the community and the environment	<ul style="list-style-type: none"> • Local community involvement with the NHS • Working with the local community • Recycling where possible
5. The desirability of the Group maintaining a reputation for high standards of business conduct	<ul style="list-style-type: none"> • Regular staff training and communication • Restaurant visits and audit processes
6. The need to act fairly between members of the Group	<ul style="list-style-type: none"> • Maintaining an open dialogue with our shareholders • Stakeholder engagement

Report of the directors for the 52 weeks ended 25 December 2022

Results and dividends

The consolidated statement of comprehensive income is set out on page 34 and shows the loss for the period.

The Directors do not recommend the payment of a dividend (2021 - £nil).

Post balance sheet events

Post balance sheet events are set out in Note 31.

Future developments

The outlook and future developments are set out in the Chairman's statement on page 3 and the Strategic Report on page 5.

Principal activities

The Group's principal activity is the operation of restaurants.

Directors

The Directors of the Group during the period were as follows:

Executive

Daniel Jonathan Plant
Mayuri Vachhani *
Harald Samúelsson

Non-Executive

Keith Lassman
Wendy Dixon (appointed 22 June 2022)

*Mayuri Vachhani is stepping down from the Board and leaving the Company on 31 March 2023

In January 2021, Daniel Jonathan Plant was awarded 15,676,640 'B' shares in Tasty plc which can be converted to ordinary 'A' shares subject to achievement of hurdle rates relating to the Company's share price. Following achievement of the first hurdle on 27 June 2022, 5,225,546 'B' shares converted to ordinary shares.

Report of the directors for the 52 weeks ended 25 December 2022

Employees

Applications from disabled persons are given full consideration providing the disability does not seriously affect the performance of their duties. Such persons, once employed, are given appropriate training and equal opportunities.

The Group takes a positive view toward employee communication and has established systems for ensuring employees are informed of developments and that they are consulted regularly.

Environment

Our recycling has dropped to an average of 35% (2021: 45%) due to producing less glass waste at points which made up the majority of our recycling weight previously. This was in part due to the bottle shortage and the period where we used canned drinks (weighing a lot less) and partly by moving more branches to draft beer. Our refuse provider has confirmed that none of our waste goes to landfill.

As part of our ongoing energy efficiency programme there has been a focus on energy saving. This includes a rigorous check list for branches which have been and may be required to close during the pandemic.

Our waste oil is collected and converted into bio diesel and biogas to ensure that none is wasted. A percentage of this is added to regular petrol and diesel reducing the carbon from burning 100% petrol or diesel. In the last 12 months we had 76 tonnes of used cooking oil collected and turned into bio diesel/gas, which saved 176 tonnes of carbon being released into the atmosphere. This equates to an average of 150 family cars worth of CO₂ being removed from the atmosphere on a monthly basis.

The Group continues to work with its delivery partners in converting all our delivery packaging to biodegradable and recyclable materials. We have stopped using plastic straws, committed to a policy recommended by the Humane League and are currently looking at ways to reduce our carbon footprint.

The Group presents its greenhouse gases (“GHG”) emissions and energy use data under Streamlined Energy and Carbon Reporting (“SECR”) for the 52-week period ended 25 December 2022:

	tCO ₂ e	tCO ₂ e
	52 weeks ended	52 weeks ended
	25 December 2022	26 December 2021
Scope 1 – Natural Gas	987	1,061
Scope 2 - Electricity	1,461	1,431
Scope 3 – Grey Fleet Mileage	165	83
Total	2,613	2,575

An energy intensity ratio of 0.134 (2021: 0.142) has been measured using the metric of tonnes CO₂e per m² floor area (“tCO₂e”).

Report of the directors for the 52 weeks ended 25 December 2022

The Group's total energy consumption for the 52-week period ended 25 December 2022 was 13,638,208 kWh (2021:12,872,041 kWh) the increase reflecting a greater number of our sites trading in 2022, with no Covid-19 related restrictions.

Donations

The Group made no charitable or political donations in the period (2021: none).

Financial Instruments

Details of the use of financial instruments and the principal risks faced by the Group are contained in Note 27 to the financial statements.

Going concern

At the time of approving the financial statements, the Directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. In reaching this conclusion the Directors have considered the financial position of the Group, together with its forecasts for the next 12 months and taking into account possible changes in trading performance.

The Group monitors cash balances and prepares regular forecasts, which are reviewed by the Board. These forecasts include our best estimates and judgements based on currently available information and the current environment. Judgement is particularly required as to the impact on trade of cost-of-living crisis and inflation.

Given the ability of the Group to manage costs, cash position and the unutilised overdraft, the Directors believe that it remains appropriate to prepare the financial statements on a going concern basis. The going concern basis of accounting has, therefore, been adopted in preparing the financial statements.

Disclosure of information to auditors

Each of the persons who are directors at the time when this Directors' Report is approved confirm that:

- so far as he/she is aware there is no relevant audit information of which the Company's auditor is unaware and
- that he/she has taken all the steps that he/she ought to have taken as a director to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Auditors

Haysmacintyre LLP were appointed as the auditors and have expressed their willingness to continue in office and a resolution to re-appoint them will be proposed at the annual general meeting.

On behalf of the Board.

Daniel Jonathan Plant
Chief Executive Officer
29 March 2023

Corporate Governance for the 52 weeks ended 25 December 2022

The Directors recognise the importance of sound corporate governance and intend to comply with the Corporate Governance Guidelines, to the extent appropriate for a company of its nature and size.

Changes to corporate governance regime

The Group adopted the Quoted Companies Alliance (QCA) Corporate Governance Code ("Code") following the changes to the AIM Rules for Companies implemented in September 2018. We will provide annual updates on our compliance with the Code. Set out below is how we comply with the Code:

Principle 1: Establish a strategy and business model which promotes long-term value for shareholders

The Group owns and operates mid-priced pan-Asian and "pizza, pasta, grill" restaurants throughout the UK. Our objectives are to provide an excellent customer experience and thereby nurture and develop our brands through our branches to promote long term value for our shareholders.

The Group is constantly strengthening its operating model and over the last few years has increased the delivery offering and avenues of delivery. The challenge over the last year has been to manage the cost pressures.

Principle 2: Seek to understand and meet shareholder needs and expectations

An open dialogue with shareholders is important to the Group. At both the Group's AGM and separate meetings with institutional shareholders following the publication of the Group's year-end and half-yearly results, the Group seeks to engage with shareholders to better understand their concerns and objectives. Feedback following these meetings is reviewed and analysed by the Board.

The AGM is led by the Chairman, Keith Lassman, and the full Board attends. Individual investor meetings are generally attended by the CEO and the CFO.

The results of the AGM are announced to the market and uploaded to the Group's website (www.dimt.co.uk/investor-relations).

The point of contact for shareholder liaison is:

Jonny Plant, Chief Executive Officer

Tel: 020 7637 1166

Principle 3: Take into account wider stakeholder and social responsibilities and their implications for long-term success.

The Group recognises the importance of good relations with stakeholders, both internal and external and we strive to improve and develop this. Feedback on how we perform as a Group and how we can improve is the key to its success.

Customers

We have invested in systems which gives us access to customer feedback on a daily basis and allow us to harness the opinions of thousands of customers each month. Using this information, we learn about our customers and what they enjoy about our restaurants, food and their dining out experience. We will continue to leverage this improved knowledge to test menu development, promotional activity and continue to build loyalty to the brands.

Corporate Governance for the 52 weeks ended 25 December 2022

Consumer tastes and habits are continually changing and the ability to keep pace with the demands of the consumer is integral to long term growth. The Group has invested in increasing the level of feedback received from customers using several channels, including mini wi-fi surveys in-store, a detailed customer feedback system and technology to collate online opinions. The Group has increased social media and marketing engagement and continually reviews ways of improving customer engagement. Offering new menu items on our menu is a key focus as well as adapting to trends.

Employees

We are still overcoming the long-term effects of the pandemic and we are working with an increasingly younger talent pool coupled with noticeable shifts identified in the needs and expectations of both current and prospective employees. We remain fully committed and invested in updating our core processes and this has been at the forefront of our people strategy.

Retention of employees is still very much an industry-wide challenge, with transient workers who are generally prepared to readily move jobs. However, despite pay being a highly sensitive factor, we have seen a large return of previous employees and a significant contingent of loyal committed employees remaining with the business who are happy with the career and development opportunities we offer.

Our Manager and Christmas Roadshows include team building exercises and celebrations in order to bring together the wider team away from their individual sites and ensure greater engagement and understanding of our new menus and the Christmas offer.

We constantly strive to look after the mental health and wellbeing of our colleagues. Our approach is to put people first by engaging more frequently with the teams and efficiently monitoring and tracking time off and annual leave. We have also rolled out a new internal communication platform which allows our colleagues to properly disconnect when not at work.

Training and development

Towards the end of 2022 an ambitious people strategy was put together with a complete “root and branch” overhaul of our job designs, induction, training and review processes. The Company handbook is to be updated and modernised and this will join a collection of specific job role training manuals.

Continual professional development is supported and encouraged at every level. Part of our CPD commitment is to deliver accredited food safety and health and safety training to the management team and we are looking forward to being able to run our face-to-face workshops once again.

In 2023, we plan to launch our Wildwood and dim t strategies which encompass our customer service journey through to our colleagues’ performance review. It is an exciting and ambitious project where we will be outlining standards, creating benchmarks and setting goals and objectives throughout the business. In addition to this, our operations’ team will be embarking on a tailor-made training course which will equip our people with new skills, knowledge and confidence to work ahead of the changing workforce demographic. A large focus will be placed on understanding our colleagues, and identifying their key drivers, motivators and dissuaders.

In addition, we follow a review, refresh, relaunch approach with our E learning platform ‘Flow’ and with this we have seen our 100% completion targets gap close. 2023 will see us exploring alternative E-learning platforms as we are keen to ensure the training approach is more in line with the learning styles of the shifting demographic of our colleagues.

Corporate Governance for the 52 weeks ended 25 December 2022

Diversity

We continue to work to create and maintain a caring and open environment. Our recruitment practices are designed to be bias-free and to attract as wide an applicant base as possible.

For our Gender Pay Gap ("GPG") figures for 2022, we reported on a smaller number of "full-pay relevant employees" ("FPE") at 934 employees of the 1,016 "relevant employees" ("RE"). The FPE accounted for 92%.

Our median GPG is 14.30% which shows a decline on our 2021 figure of 2.6%.

We are delighted that we have almost achieved a 51:49 female/male split of the FPE. Of our management teams, including restaurant and central, 53% are female.

We are focused on offering flexible working and contracts to attract a broader and more diverse workforce. We are not complacent, and rigorous pay review, reward and recruitment processes are in place to ensure we are doing all we can to eliminate any gender pay gaps.

In addition, we continue to have the privilege of having a highly diverse workforce. This allows us to make sure we can attract the most talented employees regardless of background. This includes applications from disabled persons which are given full consideration providing the disability does not seriously affect the performance of their duties. Such persons, once employed, are given appropriate training and equal opportunities.

As well as equality and diversity training being a mandatory course for all general managers on our e-learning platform, we are also rolling out face-to-face training on these important topics.

Communication

We believe having open two-way communication lines between leadership and the team, is key to our success. We have implemented communication structures that allow us to consult with our team and effect change more effectively and efficiently within our restaurants. This also increases the availability of feedback to the leadership team. In addition, weekly newsletters are shared with all restaurants which allows us to update on all changes, share best practice, celebrate success, advertise internal vacancies and highlight learning and development opportunities for our managers and teams.

Modern day slavery

As part of our Company mission to "Do the Right Thing for our People, Customers and Suppliers" we oppose modern slavery in all its forms and will try to prevent it by any means that we can. We expect anyone who has any suspicions of modern slavery in our business or our supply chain to raise their concerns with us without delay.

We are committed to conducting our business activities with integrity and holding ourselves to a high ethical standard. To this end we have implemented an Anti-Slavery policy which will be reviewed annually. Our policy is available on the Wildwood website: <https://wildwoodrestaurants.co.uk/terms/>. This policy aims to minimise the risk of modern-day slavery within our restaurants or our extensive supply chain.

Suppliers

We have built up a close relationship with most of our suppliers over a number of years and have a good understanding of our mutual business needs. Over the last 12 months we have seen inflationary

Corporate Governance for the 52 weeks ended 25 December 2022

increases as a directly result of utility increases and shortages caused by the war in Ukraine. These increases seem to have stabilised for now.

Principle 4: Embed effective risk management, considering both opportunities and threats, throughout the organisation

Audit, risk and internal control financial and non-financial controls

The Board has overall accountability for ensuring that risk is effectively managed across the Group and the Audit Committee has responsibility for reviewing the effectiveness of the Group's risk processes. The Board has overall responsibility for the Group's policies and procedures and for ensuring that they are in line with regulations and are sufficiently robust to ensure appropriate internal controls are maintained, while also providing a suitable framework within which the Group's function can operate.

The Group, in common with all businesses, could be affected by risks and uncertainties that may have a material effect on its business operations and achieving its strategic objectives including its business model, future performance, solvency or liquidity. Similarly, the risk management process and systems of internal control are designed to manage rather than eliminate the risk of failures to achieve the Group's objectives. Where possible, the Group seeks to mitigate these risks through these internal controls, but this can only provide reasonable, and not absolute, assurance against material misstatement or loss.

The Group has established internal financial controls, the effectiveness of which is regularly reviewed by the executive Board and the Audit Committee, in light of an ongoing assessment of significant risks facing the Group.

The Directors utilise a large number of detailed performance indicators to manage the business.

- The Board is responsible for reviewing and approving overall Group strategy, approving budgets, plans and capital expenditure, and for determining the financial structure of the Group including treasury, tax and dividend policy (if applicable). Weekly and monthly results and variances from plans and forecasts are reviewed by the Board.
- The Audit Committee assists the Board in discharging its duties regarding the financial statements, accounting policies and the maintenance of proper financial controls. The Board liaises with the Group's auditors in respect of both the half-yearly and year-end results and has a committee call once a year.
- Procedures are in place for budgeting and planning, for monitoring and reporting to the Board business performance against those weekly and monthly budgets and plans, and for forecasting expected performance over the remainder of the financial period. These cover profits, cash flows, capital expenditure and balance sheets. Weekly and monthly results are reported against budget and compared with prior periods, and forecasts for the current financial year are regularly revised in light of actual performance. Both weekly and daily figures are circulated to the Board.

The Group also has in place other internal controls which are appropriate for the size, complexity and risk profile of the Group. The principal elements of the Group's internal control system include:

- close management of the day-to-day activities of the Group by the Executive Directors;
- a structure with defined levels of responsibility, which promotes decision-making and rapid implementation while minimising risks;

Corporate Governance for the 52 weeks ended 25 December 2022

- central control over key areas such as capital expenditure authorisation and banking facilities; and
- whilst there is no dedicated control manager there are clearly defined roles, responsibilities and practices to ensure that compliance is adhered to.

The Group continues to review its system of internal controls to ensure compliance with best practice, while also having regard to its size and the resources available. They also investigate any significant breaches of control and recommend how to prevent such breaches in future. As part of the Group's review a number of non-financial controls covering areas such as regulatory compliance, business integrity, health and safety, risk management, business continuity and corporate social responsibility (including ethical trading, supplier standards, environmental concerns and employment diversity) have been assessed. The key elements of those non-financial controls are set out below.

Standards and policies

The Board is committed to maintaining appropriate standards for all the Group's business activities and ensuring that these standards are set out in written policies.

Approval process

All material contracts are required to be reviewed and signed by a Director of the Group and, where necessary, legal advice is obtained.

Re-assessment

The Group has business continuity plans to address key risks that have an immediate impact. Risks facing the business are re-assessed, and potential mitigating actions are considered and implemented to help protect against those risks.

Code of Conduct

Our Code of Conduct includes guidance on anything that is considered inappropriate; (including business integrity, anti-bribery, gifts, bullying, discrimination and racism) they are sent to everyone in the Group and are visible in all workplaces.

Principle 5: Maintaining the Board as a well-functioning, balanced team led by the Chair

The Board comprises a Non-Executive Chairman, Keith Lassman, three Executive Directors, Jonny Plant, Mayuri Vachhani and Harald Samúelsson, and one Non-Executive Director, Wendy Dixon. From 1 April 2023, Harald Samúelsson will revert to his previous position as an independent non-executive Director.

All Directors are encouraged to use their independent judgement and challenge all matters, whether strategic or operational. Generally, regular board meetings are held monthly, with supplementary board meetings, for example, for approvals. In 2022 we had 13 regular board calls/meetings, and in 2023 we plan to continue monthly meetings. The Board meetings were attended by the full Board. The Board is fully committed to Tasty plc and each member will contribute hours as required. The Board meetings shown below include regular meetings and not special meetings.

Corporate Governance for the 52 weeks ended 25 December 2022

Attendance by directors	Board meetings 2022
Keith Lassman	13
Daniel Jonathan Plant	13
Mayuri Vachhani	13
Harald Samúelsson	13
Wendy Dixon (appointed 22 June 2022)	6

The Company has effective procedures in place to monitor and deal with conflicts of interest. The Board is aware of its directors' other commitments and interests, and changes to these commitments and interests are reported to and, where appropriate, disclosed to and agreed with the rest of the Board.

Principle 6: Ensure that between them the Directors have the necessary up-to-date experience, skills and capabilities

The Board is satisfied that, between the Directors, it has an effective and appropriate balance of skills and experience, including in the food and beverage sector. All Directors receive regular and timely information on the Group's operational and financial performance. Relevant information is circulated to the Directors in advance of meetings. The business reports weekly and monthly on its headline performance against its agreed budget. The Board reviews the weekly and monthly updates on performance, and any significant variances are examined at each meeting.

The Board ensures that they are kept up to date of industry developments, changes and new legislation through news updates and training where necessary.

The Company's Articles of Association require that one-third of the Directors must retire and, if desired, may stand for re-election by shareholders annually in rotation; and that any new Directors appointed during the year must stand for election at the AGM immediately following their appointment.

Independent advice

All Directors are able to take independent professional advice in respect of their duties at the Group's expense. In addition, the Directors have direct access to the advice and services of the Group's legal and accounting advisers, and the Nominated Adviser. Advice is also extended to experts on complex legal matters.

Principle 7: Evaluate Board performance based on clear and relevant objectives, seeking continuous improvement

Due to the relatively small size of the Group and the Board, there is no formal process to assess the performance of each Board member. However, on an ongoing basis through regular meetings there is an opportunity to discuss development and training needs. Also, as part of this ongoing process the following is reviewed:

- their contribution is relevant and effective;
- that they are committed; and
- where relevant, they have maintained their independence.

Corporate Governance for the 52 weeks ended 25 December 2022

Principle 8: Promote a culture that is based on ethical values and behaviours

The Board aims to lead by example and do what is in the best interests of the Group. The culture of the Group is to go the extra mile for customers, suppliers, shareholders and people. In order to grow our customer base, it is vital that all our employees act in a way that reflects the values of the business. Examples of this are:

- supporting local communities events;
- supporting NHS local hospitals and armed forces; and
- group participation in many charitable events.

We have stopped using plastic straws and committed to a policy recommended by the Humane League.

Principle 9: Maintain governance structures and processes that are fit for purpose and support good decision-making by the Board

Board programme

The Board meets monthly, and prior to the meeting sets an agenda, agreed by all members for discussion at the meeting. Additional meetings are convened should the need arise. Board packs are provided in advance of each meeting to allow time for review beforehand and subsequent discussion at the meeting. Minutes are taken at the meeting to record discussions, actions and resolutions.

Roles of the Board, Chairman and Chief Executive Officer

The Board, which from 1 April 2023, comprises a Non-executive Chairman, one Executive Director and two Non-executive Directors, is responsible for the long-term success of the Group. The Board is responsible for overall Group strategy; approval of major investments; approval of the annual and interim results; annual budgets and Board structure. It monitors the exposure to key business risks and reviews the strategic direction of the Group's branches, their annual budgets and their performance in relation to those budgets. There is a clear division of responsibility at the head of the Group. The Chairman is responsible for running the business of the Board and for implementing and monitoring corporate governance structures and processes. The Chief Executive Officer is responsible for proposing the strategic focus to the Board, implementing it once it has been approved and overseeing the management of the Group through the team.

All Directors receive regular and timely information on the Group's operational and financial performance. Relevant information is circulated to the Directors in advance of meetings. The business reports weekly and monthly on its headline performance against its agreed budget, and the Board reviews the monthly update on performance and any significant variances are reviewed at each meeting. The Chief Executive officer has weekly meetings and conference calls with the area managers and department heads.

Corporate Governance for the 52 weeks ended 25 December 2022

Board committees

The Board is supported by the Audit and Remuneration Committees. Each committee has access to such resources, information and advice as it deems necessary, at the cost of the Group, to enable the committee to discharge its duties.

The Audit and Remuneration Committees comprise two of the Non-executive Directors and are chaired by the Chairman. Other Directors are invited to attend as appropriate and only if they do not have a conflict of interest. The Audit and Remuneration Committees' members meet as required.

The Audit Committee receives, and reviews reports from management and the auditors relating to the annual and interim accounts and the accounting and internal control systems used by the Group. The Group last tendered the audit in 2019 and Haysmacintyre LLP were appointed to replace the previous auditors. The external auditors may perform certain non-audit services for the Group. Any such non-audit services require pre-approval by the Audit Committee and are only permitted to the extent allowed by relevant laws and regulations. Full details of the auditor's remuneration are shown in note 4 to the Financial Statements.

The Audit Committee has primary responsibility for ensuring that the financial performance of the Group is properly measured and reported on. The Audit Committee receives, and reviews reports from the Group's management and auditor relating to the interim and annual accounts and the accounting and internal control systems in use throughout the Group. The Audit Committee meets once a year or more at appropriate intervals in the financial reporting and audit cycle and otherwise as required. The Audit Committee has unrestricted access to the Group's auditor. The principal areas of focus during the year included the following items:

- review of the Annual Report and financial statements.
- approval of the management representation letter.
- review of the auditors' fees and engagement letter. The Audit Committee met with the external auditors to review their Audit Plan, their report and significant findings arising during the audit.

The Remuneration Committee's principal responsibility is to review the scale and structure of the Executive Directors remuneration and the terms of their service contracts. The Audit Committee receives, and reviews reports from management and the auditors relating to the annual and interim accounts and the accounting and internal control systems used by the Group.

The Remuneration Committee intends that its policy and practice should align with and support the implementation of the Group's strategy and effective risk management for the long term. The policy is intended to motivate the right behaviours and to ensure that any risk created by the remuneration structure is acceptable to the Remuneration Committee and within the risk appetite of the Board and its strategy.

The Remuneration Committee considers the expectation of shareholders when setting pay structure and incentive policies. The Committee also considers whether the remuneration package should consist of fixed and variable pay elements.

Corporate Governance for the 52 weeks ended 25 December 2022

Principle 10: Communicate how the Group is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders

The Group communicates with shareholders through the Annual Report and Accounts, full-year and half-year announcements, the Annual General Meeting (“AGM”) and one-to-one meetings with significant existing or potential new shareholders.

The Board receives regular updates on the views of shareholders through briefings and reports from the Group’s brokers. The Group meets with institutional investors following the half-yearly and year-end results.

Where a significant proportion of votes (e.g. 20% of independent votes) have been cast against a resolution at any general meeting, the Group will on a timely basis, include an explanation of what actions it intends to take to understand the reasons behind that vote result, and, where appropriate, any different action it has taken, or will take, as a result of the vote.

For all historical annual reports and other governance-related material including notices of all general meetings over the last five years please refer to our website <https://dimt.co.uk/investor-relations/profile/>.

Executive Directors’ Remuneration report

The Group’s remuneration policy is designed to provide competitive rewards for its Executive Directors, taking into account the performance of the Group and the individual Executives, together with comparisons to pay conditions in the sector in which the Group operates. The committee seeks to establish a basic salary for each Executive determined by individual responsibilities and performance, taking into account comparable salaries for similar positions in companies of a similar size and sector.

Basic Salary

Basic salaries are reviewed on an annual basis or following a significant change in responsibilities. The Remuneration Committee seeks to establish a basic salary for each Executive by reference to individual responsibilities and performance, considering comparable salaries for similar positions in companies of a similar size and sector.

Incentive Shares

These are designed to reflect the Group’s share price performance, aligning participants interests with those of shareholders. Further details of the scheme are set out on page 66.

Benefits

The Executive Director(s) are entitled to a range of benefits, including contributions to individual personal pension plans, private medical insurance and reviewing life assurance.

Service Contracts and Notice Periods

The Executive Director(s) are employed on rolling contracts subject to three or six months’ notice. Service contracts do not provide explicitly for termination payments, but the Group may make payments in lieu of notice, being basic salary and other relevant emoluments for the notice period.

Corporate Governance for the 52 weeks ended 25 December 2022

Non-Executive Directors

All Non-executive Directors have a letter of appointment subject to three months' notice. In the event of termination of their appointment they are not entitled to any compensation. Non-executive Directors' fees are determined by the Executive Directors having regard to the needs of the Group and comparative fees paid in the sector in which the Group operates. They are not eligible for pensions or other benefits.

Directors' Emoluments

The remuneration of each Director is set on page 55.

Statement of directors' responsibilities

The Directors are responsible for preparing the strategic report, the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the Group and Company financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the United Kingdom. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and the Company and of the profit or loss of the Group for that period. The Directors are also required to prepare financial statements in accordance with the AIM Rules for Companies issued by the London Stock Exchange.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with IFRSs as adopted by the United Kingdom, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the financial position of the Group and enable them to ensure that the financial statements comply with the requirements of the Companies Act 2006. They are also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Website publication

The Directors are responsible for ensuring the annual report and the financial statements are made available on a website. Financial statements are published on the Company's website (www.dimt.co.uk) in accordance with legislation in the United Kingdom governing the preparation and dissemination of financial statements, which may vary from legislation in other jurisdictions. The maintenance and integrity of the Company's website is the responsibility of the Directors. The Directors' responsibility also extends to the ongoing integrity of the financial statements contained therein.

Independent auditors' report to the members of Tasty plc

Opinion

We have audited the financial statements of Tasty plc (the 'parent company') and its subsidiaries (the 'group') for the 52-week period ended 25 December 2022 which comprise:

Group	Company
<ul style="list-style-type: none">• the Consolidated Statement of Comprehensive Income;• the Consolidated Statement of Changes in Equity;• the Consolidated Balance Sheet;• the Consolidated Statement of Cash flows;• and related notes to the financial statements	<ul style="list-style-type: none">• the Company Statement of Changes in Equity;• the Company Balance Sheet;• the Company Statement of Cash flows;• and related notes to the financial statements

The financial reporting framework that has been applied in their preparation is applicable law and UK adopted International Financial Reporting Standards (IFRSs).

In our opinion, the financial statements:

- give a true and fair view of the state of the group's and of the parent company's affairs as at 25 December 2022 and of the group's loss for the period then ended;
- have been properly prepared in accordance with UK adopted IFRSs; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

An overview of the scope of our audit

As the Group comprises a parent holding company and one trading subsidiary the scope of our work was the audit of the financial statements of the Group and its trading subsidiary. The scope of the audit and our audit strategy was developed by using our audit planning process to obtain and update our understanding of the Group, its activities, its internal control environment, current and where relevant to our audit, likely future developments.

Our audit testing was informed by this understanding of the Group and accordingly was designed to focus on areas where we assessed there to be the most significant risks of material misstatement.

Audit work to respond to the assessed risks was performed directly by the audit engagement team who performed full scope audit procedures on the Parent Company and the Group as a whole.

Independent auditors' report to the members of Tasty plc

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How we addressed the key audit matter in the audit
<p>Revenue recognition - The risk of incorrect or inappropriate treatment and recognition (principally the risk of overstatement) of food and beverage revenue and other income streams under IFRS.</p> <p>The majority of the Group's revenue transactions are noncomplex, with no judgement applied over the amount recorded.</p> <p>However, we consider there to be increased risks relating to fraud in revenue recognition in respect of the risk of management override of controls and journals to revenue.</p> <p>There is an elevated risk of errors in the recognition of cut off of revenue as the recognition of income around the year end may be more susceptible to override or error.</p>	<p>We performed perform specific tests to consider whether revenue has been recorded in the correct period and is free from misstatement.</p> <ul style="list-style-type: none"> • We completed a cash reconciliation test, as well as test a test in total between the till system and the accounting system; • As part of this review, we considered the operating effectiveness of the relevant accounting systems; • We reviewed a sample of the weekly reconciliations of till system to bank receipts/credit card receipts to consider the accuracy of information included within the respective accounting systems; • Our review also included an assessment of the appropriateness of the recognition of trade receivables; • We applied data analytics techniques to visualise and group the Group's entire revenue population to identify how the Group's revenue is posted and to identify revenue transactions that fell outside of expectations of the standard revenue recognition cycles for further analysis. • We performed analytical review procedures, including the use data analytics techniques as risk assessment procedures over the monthly revenue to help identify periods in which further audit work may be required; • We performed specific testing on revenue recognised around the year end ("cut off" testing) to assess the risk that revenue had been recognised in the wrong periods, this

Independent auditors' report to the members of Tasty plc

Key audit matter	How we addressed the key audit matter in the audit
	<p>testing included a review of revenue from takeaway orders which was considered to be a higher risk.</p>
<p>Risk of Impairment of property, plant and equipment and other assets - IAS 36 ensures that the assets of an entity are carried at no more than their recoverable amount and sets out indicators of impairment which should be considered in the preparation of financial statements.</p> <p>Continued economic uncertainty in the UK due to high levels of cost inflation, increasing interest rates and the broader 'cost of living crisis' combine to pose a risk of reduced demand for the group's products.</p> <p>Simultaneously the group is not immune to cost pressures and faces increasing costs for its inputs, particularly wages and salaries, food prices and energy costs.</p> <p>There is then, a risk that indicators of impairment exist as some sites may not have performed as expected and thus their carrying value cannot be supported or justified.</p> <p>This could lead to an impairment charge that has not been recognized by management</p>	<ul style="list-style-type: none"> • We obtained and reviewed management's calculations of the net present value ("NPV") of each restaurant site which management consider to represent cash generating units ("CGUs"). Management use these calculations for determining whether individual sites are impaired; • We critically assessed the methodology used by management to calculate the NPV by site and considered alternative models • We recalculated the NPV for each site and in total using our own model but management's inputs to test the integrity and arithmetical accuracy of management's calculations. • We reviewed the calculations and assessed whether these correctly identified the value in use of each site; • We assessed and challenged the estimates and judgements made and assumptions used, the key inputs being: <ul style="list-style-type: none"> ○ Forecast future results for each site ○ Discount rate ○ Future cashflow forecast, including capital spend ○ Growth rate ○ Lease length • We selected for further investigation, those sites where the surplus of the calculated NPV over carrying value was most sensitive to the risk of forecasts not being achieved • We obtained evidence to support the assumptions used and performed sensitivity analysis on the growth rate and discount rate; • We compared the capital spend to that in previous years. We considered the allocation of impairment between each class of fixed asset;

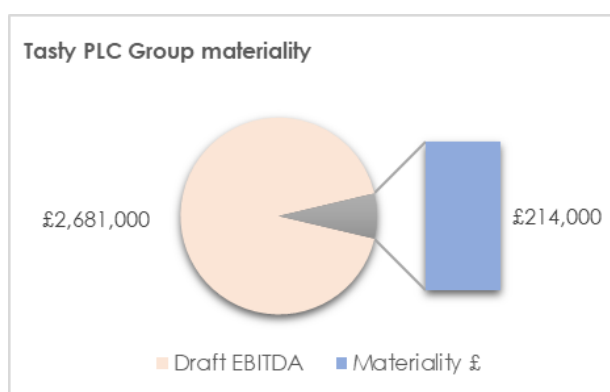

Independent auditors' report to the members of Tasty plc

Key audit matter	How we addressed the key audit matter in the audit
	<ul style="list-style-type: none"> We reviewed the financial statement disclosures and considered the appropriateness of the disclosed sensitivities that are included.

Our application of materiality

The scope and focus of our audit were influenced by our assessment and application of materiality. We define materiality as the magnitude of misstatement that could reasonably be expected to influence the readers and the economic decisions of the users of the financial statements. We use materiality to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole.

The materiality for the Group financial statements as a whole was set at £214,000 (26 December 2021 – £220,000). This was determined as being 8% of draft EBITDA.

EBITDA was selected as a benchmark because it is a Key Performance Indicator of the Group and stakeholders are principally interested in the underlying performance of the group.

Materiality was reassessed during the audit and it was considered reasonable to maintain materiality as £214,000.

The materiality for the Parent Company accounts was set at £123,000 (26 December 2021 – £214,000). This was determined as being 2% of net assets.

Based on our risk assessment, our experience of the prior year audits and review of the Group's control environment, performance materiality was set at 75% of materiality, being £161,000 (26 December 2021 – 70% of materiality being £154,000).

The reporting threshold to the audit committee was set as 5% of materiality, being £10,700 (26 December 2021 – £11,000). If, in our opinion in differences below this level warranted reporting on qualitative grounds, these would also be reported.

Independent auditors' report to the members of Tasty plc

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our evaluation of the directors' assessment of the group's ability to continue to adopt the going concern basis of accounting included:

- Discussing management's assessment of the group's ability to remain a going concern;
- Reviewing and understanding the cash flow forecasts for the period to end of June 2024 which are the central element of management's going concern assessment;
- Assessing and challenging the inputs in and judgements made in the preparation of the cash flow forecasts for the period to end of June 2024; and
- Performing stress tests including sensitivity analysis to model the effect of changing assumptions made or amending key data used in management's cash flow forecasts and considering the impact on the group's ability to adopt the going concern basis

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Independent auditors' report to the members of Tasty plc

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the group and the parent company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the Company and management:

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to regulatory requirements in respect of employment law, including but not limited to minimum wage regulation, and foods standards requirements. We considered the extent to which non-compliance might have a material effect on the financial

Independent auditors' report to the members of Tasty plc

statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2006, payroll tax and sales tax.

We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to posting inappropriate manual journal entries to revenue and the risk of management bias in accounting estimates. Audit procedures performed by the engagement team included:

- Discussions with management including consideration of known or suspected instances of non-compliance with laws and regulation and fraud;
- The evaluation of management's controls designed to prevent and detect irregularities;
- The identification and review of manual journals, in particular journal entries which shared key risk characteristics; and
- The review and challenge of assumptions, estimates and judgements made by management in their recognition of accounting estimates.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an Auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

The Parent Company, Tasty plc, has taken advantage of the exemption in s408 of the Companies Act 2006 not to publish its own income statement. The Parent Company made a loss of £0.7m (2021 – loss of £0.14m) for the period.

The Parent Company has not recognised leases under IFRS 16 in its balance sheet as management have concluded that the substance of the leases is held by the subsidiary, Took Us A Long Time Ltd (“TUALT”) and recognised within its Company accounts (page 42).

The financial statements were approved by the board of directors of the Company and authorised for issue on 29 March 2023 and signed on their behalf by Daniel Jonathan Plant.

The notes on pages 41 to 76 form part of these financial statements.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

1 Accounting policies

Tasty plc ("Tasty") is a publicly listed company incorporated and domiciled in England and Wales. The Company's ordinary shares are quoted on AIM. Tasty's registered address is 32 Charlotte Street, London, WC1T 2NQ. The Group's principal activity is the operation of restaurants.

(a) Statement of compliance

These financial statements of the Group and Company have been prepared in accordance with International Financial Reporting Standards, International Accounting Standards and Interpretations (collectively IFRS) issued by the International Accounting Standards Board (IASB) as adopted by the United Kingdom ("adopted IFRSs"). These financial statements have also been prepared in accordance with those parts of the Companies Act 2006 that are relevant to companies that prepare their financial statements in accordance with IFRS.

(b) Basis of preparation

The financial statements cover the 52-week period ended 25 December 2022, with a comparative period of the 52-week period ended 26 December 2021. The financial statements are presented in sterling, rounded to the nearest thousand and are prepared on the historical cost basis. The accounting policies of the Company are consistent with the policies adopted by the Group.

(c) Going concern

As at 25 December 2022, the Group had net liabilities of £2.0m (2021: net assets of £4.3m). The Group meets its day-to-day working capital requirements through the generation of operating cashflow, equity raise and bank finance. The Group's principal sources of funding are:

- Issues of ordinary share capital in the Company on AIM.
- Bank debt when required - The Group repaid and cancelled the outstanding Barclays Bank facility of £1.1m as it was unutilised, and it was considered prudent given the increasing interest rate charges. Based on the base rate at the time, there will be an annualised interest saving of approximately £57,000 which would be considerably more at today's rate. However, the Group has a modest £250,000 overdraft facility.

The pandemic led to high uncertainty and disruption in the economy and hospitality industry; the energy and cost-of-living crisis followed this. Throughout this period costs were controlled carefully, and cash outflows reduced. Over the last 12 months we have seen inflationary increases directly due to utility increases and shortages caused by the war in Ukraine. These increases appear to have stabilised.

The Group monitors cash balances and prepares regular forecasts, which are reviewed by the Board. These forecasts include our best estimates and judgements based on currently available information and current environment. Judgement is particularly required as to the impact on trade of cost-of-living crisis and inflation.

Given the ability of the Group to manage costs, cash position and the availability of the unutilised overdraft the Directors believe that it remains appropriate to prepare the financial statements on a going concern basis.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

1 Accounting policies (continued)

(d) Leases

Group's accounting policies for leases are as follows:

Lessee accounting

IFRS 16 distinguishes between leases and service contracts on the basis of whether the use of an identified asset is controlled by the customer. Control is considered to exist if the customer has:

- The right to obtain substantially all of the economic benefits from the use of an identified asset; and
- The right to direct the use of that asset in exchange for consideration.

All leases are accounted for by recognising a right-of-use asset and a lease liability except for:

- Leases of low value assets, and
- Leases with a duration of 12 months or less.

Subsequent to initial measurement lease liabilities increase as a result of interest charged at a constant rate on the balance outstanding and are reduced for lease payments made. Right-of-use assets are amortised on a straight-line basis over the remaining term of the lease.

The Group's leases are held across Tasty plc or Took Us Long Time Ltd ("TUALT"). In determining where the assets and liabilities should be accounted for, we have reviewed which entity derives the benefit and rights to use the asset. In assessing this we have reviewed where the trade occurs, where staff are employed and where day to day activity is managed from. We have concluded that the substance of the lease is that it is held by TUALT and accordingly recognised the lease liabilities within the TUALT company financial statements.

The lease liabilities recognised in TUALT but in the name of Tasty plc totalled £41m at 25 December 2022 (£43m at 26 December 2021). Accordingly, this balance represents a contingent liability for the Company only.

Lessor accounting

Under IFRS 16, a lessor continues to classify leases as either finance leases or operating leases and account for those two types of leases differently.

Based on an analysis of the Group's operating leases as at 25 December 2022 on the basis of the facts and circumstances that exist at that date, the Directors of the Group have assessed that the impact of this change has not had any impact on the amounts recognised in the Group's consolidated financial statements.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

1 Accounting policies (continued)

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low value assets. The Group recognises these payments as an expense on a straight-line basis over the lease term. Currently the Group has no low value assets or short-term leases.

Covid-19 related rent concessions

IFRS 16 defines a lease modification as a change in the scope of a lease, or the consideration for a lease, that was not part of the original terms and conditions of the lease. The Group has considered the Covid-19 related rent concessions and applied the lease modifications accounting.

(e) Changes in accounting policies and disclosures

New standards, amendments to standards or interpretations adopted by the Group

Amendments to accounting standards applied in the 52 weeks ended 25 December 2022 were as follows:

- Definition of Material – amendments to IAS 1 and IAS 8; and
- Revised Conceptual Framework for Financial Reporting; and

The application of these did not have a material impact on the Group's accounting treatment and has therefore not resulted in any material changes.

New standards, amendments to standards or interpretations not yet adopted by the Group

The following new standards, amendments to standards or interpretations are mandatory for the first time for the financial years beginning on or after 1 January 2022. No standards have been early adopted by the Group.

- Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 - Interest Rate Benchmark Reform Phase 2
- Amendment to IFRS 16 – Covid-19-Related Rent Concessions beyond 30 June 2021
- Annual Improvements to IFRS Standards 2018-2020 Cycle
- Amendment to IAS 37 – Onerous Contracts: Cost of Fulfilling a Contract
- Amendment to IAS 1 – Classification of Liabilities as Current or Non-current
- Amendments to IAS 1 and IFRS Practice Statement 2 – Disclosure of Accounting Policies
- Amendments to IAS 8 – Definition of Accounting Estimates

We are currently assessing the impact of these new accounting standards and amendments. The amendments are not expected to have any significant impact on the Group.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

1 Accounting policies (continued)

(f) Basis of consolidation

The consolidated financial statements consolidate the results of the Company and its subsidiary, Took Us A Long Time Limited. The accounting period of the subsidiary is coterminous with that of the Company.

The accounting policies of the subsidiary are consistent with those of the Group. Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated.

(g) Revenue

The Group's revenue is derived from goods and services provided to the customers from dine-in, delivery and takeaway. Revenue is recognised at the point in time when control of the goods has transferred or service provided to the customer. Control passes to the customers at the point at which food and drinks are provided and the Group has a present right for payment.

(h) Other income

Included in Other income is rental income from operating leases. Rental income is recognised in the period to which it relates and rent free periods would be spread over the terms of the lease. The cost of these leases is included within the cost of sales.

The Group received Government grants in 2021 under the Coronavirus Job Retention Scheme ("CJRS") and "Retail and Hospitality Business Grants" schemes provided by the Government in response to Covid-19's impact on the business. In accordance with IAS 20, the Group recognised the salary expense and recognised the CJRS grant income in profit and loss as the Group became entitled to the grant. "Retail and Hospitality Business Grants" were recognised when there was reasonable assurance that the Group has met the conditions attaching to these grants.

(i) Retirement benefits: Defined contribution schemes

Contributions to defined contribution pension schemes are charged to the consolidated income statement in the period to which they relate.

(j) Share based payments

Certain employees (including Directors and senior executives) of the Group receive remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments (e.g. options, shares etc).

The cost of this is measured by reference to the fair value at the date on which they are granted. The fair value is determined by using an appropriate pricing model (e.g. binomial or Monte Carlo model).

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting date). The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The profit or loss charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

1 Accounting policies (continued)

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied, provided that all other performance and/or service conditions are satisfied. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

(k) Borrowing costs

Borrowing costs, principally interest charges, are recognised in the income statement in the period in which they are incurred. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. This is also applicable to fees for amendments to the loan facilities. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

(l) Externally acquired intangible assets

Externally acquired intangible assets are initially recognised at cost and subsequently amortised on a straight-line basis over their useful economic lives. The amortisation expense is included within the cost of sales line in the consolidated income statement.

The significant intangibles recognised by the Group and their useful economic lives are as follows:

<u>Intangible asset</u>	<u>Useful economic life</u>
Trademarks	10 years

(m) Property, plant and equipment

Items of property, plant and equipment are stated at cost less accumulated depreciation (see below) and impairment losses.

Depreciation is provided to write off the cost or valuation, less estimated residual values, of all fixed assets, evenly over their expected useful lives and it is calculated at the following rates:

Leasehold improvements	over the period of the lease
Fixtures, fittings and equipment	10% per annum straight line
Computers	20% per annum straight line
Electric Vehicle	20% per annum straight line
Right-of-use assets	over the period of the lease

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

1 Accounting policies (continued)

Property, plant and equipment are reviewed for impairment in accordance with IAS 36 Impairment of Assets, when there are indications that the carrying value may not be recoverable. Impairment charges are recognised in the statement of comprehensive income. See note 2(d) for further details.

(n) Non-current assets held for sale

Non-current assets are classified as held for sale when the Board plans to sell the assets and no significant changes to this plan are expected. The assets must be available for immediate sale, an active programme to find a buyer must be underway and be expected to be concluded within 12 months with the asset being marketed at a reasonable price in relation to the fair value of the asset. There are currently no assets held for sale as at 25 December 2022.

Non-current assets classified as held for sale are measured at the lower of their carrying amount immediately prior to being classified as held for sale and fair value less costs of disposal. Following their classification as held for sale, non-current assets are not depreciated.

(o) Provisions

The Group has recognised provision for dilapidations for a number of sites, where the need to carry out the work has been identified but a full survey and commission has not been undertaken and therefore management has applied their judgment in determining the provision.

(p) Loans and receivables

The Group's loans and receivables comprise trade and other receivables and cash and cash equivalents in the balance sheet. The Company's loans and receivables comprise only inter-Company receivables. Cash and cash equivalents include cash in hand and deposits held with banks. They are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue and are subsequently carried at amortised cost using the effective interest rate method, less provision for impairment.

Impairment provisions for trade receivables are recognised based on the simplified approach within IFRS 9 using a provision matrix in the determination of the lifetime expected credit losses. During this process the probability of the non-payment of the trade receivables is assessed. This probability is then multiplied by the amount of the expected loss arising from default to determine the lifetime expected credit loss for the trade receivables. For trade receivables, which are reported net, such provisions are recorded in a separate provision account with the loss being recognised in the consolidated statement of comprehensive income. On confirmation that the trade receivable will not be collectable, the gross carrying value of the asset is written off against the associated provision.

Impairment provisions for receivables from the company's subsidiary recognised based on a forward-looking expected credit loss model which uses the forecast results of the subsidiary as a key input. The methodology used to determine the amount of the provision is based on whether there has been a significant increase in credit risk since initial recognition of the financial asset. For those where the credit risk has not increased significantly since initial recognition of the financial asset, twelve month expected credit losses along with gross interest income are recognised. For those for which credit risk has increased significantly, lifetime expected credit losses along with the gross interest income are

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

1 Accounting policies (continued)

recognised. For those that are determined to be credit impaired, lifetime expected credit losses along with interest income on a net basis are recognised.

(q) Apprenticeship funding and levy

The payments made under the levy represent a prepayment for training services expected to be received and is recognised as an asset until the receipt of the service. When the training service is received, an appropriate expense is recognised. The apprenticeship grant income is deferred until apprentices receive training under the rule of the scheme and we are satisfied that we have fully complied with the scheme. We have applied an element of judgement until a full inspection is carried out.

(r) Financial liabilities

Financial liabilities include trade payables, and other short-term monetary liabilities, which are initially recognised at fair value and subsequently carried at amortised cost.

Bank borrowings were initially recognised at fair value and subsequently measured at amortised cost using the effective interest method. Interest expense includes initial transaction costs and any premium payable on redemption as well as any interest payable while the liability is outstanding.

(s) Inventories

Raw materials and consumables

Inventories are stated at the lower of cost and net realisable value. Cost comprises costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is based on estimated selling price less costs incurred up to the point of sale.

Crockery and utensils (Smallwares)

Smallware inventories are held at cost which is determined by reference to the quantity in issue to each restaurant. Smallware inventory relates to small value items which have short life spans relating to kitchen and bar equipment. These items are recorded under inventory as they are utilised in providing food and beverage to customers.

(t) Taxation

Tax on the profit and loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity. Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities are recognised where the carrying amount of an asset or liability in the balance sheet differs from its tax base, except for differences arising on:

- The initial recognition of goodwill
- The initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting or taxable profit.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

1 Accounting policies (continued)

Recognition of deferred tax assets is restricted to those instances where it is probable that taxable profit will be available against which the difference can be utilised.

Deferred tax is provided using the balance sheet liability method, providing for all temporary differences between the carrying amounts of assets and liabilities recorded for reporting purposes and the amounts used for tax purposes.

The amount of the asset or liability is determined using tax rates that have been enacted or substantively enacted by the reporting date and are expected to apply when the deferred tax liabilities or assets are settled or recovered. Deferred tax balances are not discounted.

(u) Goodwill

Goodwill represents the difference between the fair value of consideration paid and the carrying value of the assets and liabilities acquired. Goodwill arose on acquisition of a group of leases.

Goodwill is stated as originally calculated less any accumulated provision for impairment. Goodwill is allocated to individual CGUs, where each CGU is a restaurant, and is subject to an impairment review at each reporting date.

(v) Investments

Investments in subsidiaries are included in the Company's Statement of Financial Position at cost less provision for impairment.

(w) Share capital

The Company's ordinary shares are classified as equity instruments.

(x) Operating profit

Operating profit is stated after all expenses, but before financial income or expenses. Highlighted items are items of income or expense which because of their nature and the events giving rise to them, are not directly related to the delivery of the Group's restaurant service to its patrons and merit separate presentation to allow shareholders to understand better the elements of financial performance in the year, so as to facilitate comparison with prior periods and to assess better trends in financial performance.

(y) Earnings per share

Basic earnings per share values are calculated by dividing net profit/(loss) for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

2 Critical accounting estimates and judgements

The preparation of the Group's financial statements requires management to make certain estimates, judgements and assumptions that affect the reported amount of assets and liabilities, and the disclosure of contingent liabilities at the statement of financial position date and amounts reported for revenues and expenses during the year.

However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the assets or liability affected in the future. Estimates and judgements are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are discussed below.

(a) Share based payments (Note 26)

The Group operates equity share-based remuneration schemes for employees. Employee services received and the corresponding increase in equity are measured by reference to the fair value of the equity instruments at the date of grant, excluding the impact of any non-market vesting conditions. The fair value of share options is estimated by using valuation models, such as binomial or the Monte Carlo model on the date of grant based on certain assumptions. Those judgements, estimates and assumptions are described in Note 26 and include, among others, the dividend growth rate, expected volatility, expected life of the options (for options with market conditions) and number of options expected to vest.

(b) Accruals (Note 18)

In order to provide for all valid liabilities which exist at the balance sheet date, the Group is required to accrue for certain costs or expenses which have not been invoiced and therefore the amount of which cannot be known with certainty. Such accruals are based on management's best estimate and past experience. Delayed billing in some significant expense categories such as utility costs can lead to sizeable levels of accruals. The total value of accruals as at the balance sheet date is set out in note 18.

(c) Impairment reviews (Note 13)

In performing an impairment review in accordance with IAS 36 it has been necessary to make estimates and judgements regarding the future performance and cash flows generated by individual trading units which cannot be known with certainty. The Group views each restaurant as a separate cash generating unit ("CGU"). Where the circumstances surrounding a particular trading unit have changed then forecasting future performance becomes extremely judgemental and for these reasons the actual impairment required in the future may differ from the charge made in the financial statements. When assessing a CGU recoverable amount, the value in use calculation uses a discounted cash flow model which is sensitive to the discount rate and the growth rate used after taking into account potential sale value. The fair values were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs. The cashflow projections are influenced by factors which are inherently uncertain to forecast such as footfall and inflation and non-controllable costs such as rates and license costs.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

All assets (ROU, fixed assets and goodwill) are reviewed for impairment in accordance with IAS 36 Impairment of Assets, when there are indications that the carrying value may not be recoverable. Impairment charges are recognised in the statement of comprehensive income.

All assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the recoverable amount is higher than the carrying amount of the CGU, no further assessment is required. Where the carrying value of an asset or a CGU exceeds its recoverable amount (i.e. the higher of value in use and fair value less costs to dispose of the asset), the asset is written down accordingly. In the absence of any information about the fair value of a CGU, the recoverable amount is deemed to be its value in use. Value in use is calculated using cash flows over the remaining life of the lease for the CGU discounted at 8% (2021: 6%), being the rate considered to reflect the risks associated with the CGUs. The discount rate is based on the Group's weighted average cost of capital ("WACC") and an allowance for risk which is used across all CGUs due to their similar characteristics.

The cost-of-living crisis has resulted in increased uncertainty in the performance across CGUs over the short-term future and the cashflow over the next 12 months may not always be indicative of the future cashflows. Historically a combination of past performance and future trading forecast is often used as a guide in estimating future cashflow, or comparison with similar sites. In assessing the current impairment provision there has been a greater reliance on longer term future forecasts as short-term forecasts are impacted by the "cost of living crisis" and inflation. The cashflow of each CGU has been determined based on management's judgement of performance, impact of the utility costs and expected recovery in future years and therefore each CGU's cashflow has been selected based on an individual criterion. Management's judgement has been applied in selecting this criterion due to the uncertainty arising from amongst other conditions, cost of living increases and utility cost pressures and therefore a 0.75% growth rate (2021 – 0.5%) has been applied. Included within the cashflow is management's estimate of the capital expenditure required to maintain performance of the sites in the future years. The carrying amount of Fixed Assets and ROU assets and the sensitivity of the carrying amounts to the assumptions and estimates are outlined in Note 13.

(d) Goodwill impairment reviews (Note 12)

The Group determines whether goodwill is impaired on an annual basis and this requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. This involves estimation of future cash flows and choosing a suitable discount rate. Full details are supplied in note 12, together with an analysis of the key assumptions.

(e) Intercompany provision (Note 17)

In carrying out a review of intercompany loan in accordance with IFRS 9 it has been necessary to make estimates and judgements regarding the repayment of the loan by its subsidiary to the Company. A sensitivity analysis has been performed on the repayment of loan value.

(f) Crockery and utensils (Smallwares) inventory

The cost of replenishing smallwares is expensed directly through the income statement. Smallwares is recognised at historic cost and tested for impairment on an annual basis.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

(g) Lease liabilities (Note 1(d))

The calculation of lease liabilities requires the Group to determine an incremental borrowing rate (“IBR”) to discount future minimum lease payments. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR rate of 4.6% therefore reflects what the Group ‘would have to pay’, which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. As at 25 December 2022, a sensitivity analysis has been conducted on the lease liabilities which shows that increasing the IBR rate by 1% will decrease the lease liability by £3.0m and decrease the right-of-use asset pre-impairment by £2.6m.

(h) Provision

A dilapidation provision is made for a number of sites, where the need to carry out the work has been identified but a full survey and commission has not been undertaken and therefore management has applied their judgment in determining the provision. In arriving at the dilapidation provision for these sites management have reviewed the leases and have used their judgement and experience gained from years of working in hospitality and property industry.

The apprenticeship grant income is deferred until apprentices receive training under the rule of the scheme and we are satisfied that we have fully complied with the scheme. We have applied an element of judgement until a full inspection is carried out.

(i) Lease recognition

The Group’s leases are held across Tasty plc or Took Us Long Time Ltd (“TUALT”). In determining where the assets and liabilities should be accounted for, we have reviewed which entity derives the benefit and rights to use the asset. In assessing this we have reviewed where the trade occurs, where staff are employed and where day to day activity is managed from. We have adjudged that the substance of the lease is that it is held by TUALT and accordingly recognised the lease liabilities within the TUALT company accounts.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

3 Revenue, other income and segmental analysis

The Group's activities, comprehensive income, assets and liabilities are wholly attributable to one operating segment (operating restaurants) and arises solely in the one geographical segment (United Kingdom) that the Group is located and operates in. All the Group's revenue is recognised at a point in time being when control of the goods has transferred to the customer.

An analysis of the Group's total revenue is as follows:

	52 weeks ended 25 December 2022 £'000	52 weeks ended 26 December 2021 £'000
Sale of goods and services: dine-in	39,004	26,319
Sale of goods and services: delivery and takeaway	5,023	8,590
	44,027	34,909

An analysis of the Group's other income is as follows:

	52 weeks ended 25 December 2022 £'000	52 weeks ended 26 December 2021 £'000
Sub-let site rental income	362	295
Coronavirus Job Retention Scheme (CJRS) and Business Grants	-	3,913
Other	52	-
	414	4,208

In the period to 26 December 2021, the Group received Government grants in relation to the Coronavirus Job Retention Scheme ("CJRS") and Covid-19 Business Grants, provided by the Government in response to Covid-19's impact on the business. These were recognised in accordance with IAS 20 (Accounting for Government Grants and Disclosure of Government Assistance) when the Group was entitled to, or there was reasonable assurance that the Group has met the conditions attaching to these grants.

No such grants were available in the 52 weeks ended 25 December 2022.

9 Income tax expense

	52 weeks ended 25 December 2022 £'000	52 weeks ended 26 December 2021 £'000
UK Corporation tax		
Adjustment in respect to previous years	-	-
Total current tax	-	-
Deferred tax		
Origination and reversal of temporary differences	-	-
Total deferred tax	-	-
Total income tax credit	-	-

The tax charge for the period is lower than the standard rate of (2021 – lower than) corporation tax in the UK. The differences are explained below:

	52 weeks ended 25 December 2022 £'000	Restated 52 weeks ended 26 December 2021 £'000
(Loss)/profit before tax	(6,432)	1,151
Tax on (loss)/profit at the ordinary rate of corporation tax in UK of 19% (2021 – 19%)	(1,222)	219
Effects of		
Fixed assets differences	335	-
Expenses not deductible for tax	102	22
Remeasurement of deferred tax for changes in tax rates	-	(1,055)
Movement in deferred tax not recognised	791	820
Adjustment in respect of previous years	-	-
Other movements	(6)	(6)
Total tax charge	-	-

Factors affecting future tax charges

In March 2021 it was announced the UK corporation tax rate would increase to 25% in April 2023. This plan was substantively enacted in May 2021 and the disclosed but unrecognised deferred tax disclosed in Note 20 is calculated at the future tax rate of 25%.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

10 Earnings per share

	25 December 2022 Pence	Restated 26 December 2021 Pence
Basic (loss)/ profit per ordinary share	(4.40p)	0.82
Diluted (loss)/ profit per ordinary share	(4.03p)	0.72

(Loss)/ profit per share has been calculated using the numbers shown below:

	2022 Number '000	2021 Number '000
Weighted average number of ordinary shares used as the denominator in calculating basic earnings per share	146,315	141,090

Adjustments for calculation of diluted earnings per share:

Ordinary B shares	10,451	14,815
Options	2,975	3,265

Weighted average number of ordinary shares and potential ordinary shares used as the denominator in calculating diluted earnings per share	159,741	159,170
--	----------------	---------

	2022 £'000	2021 £'000
(Loss)/ profit for the financial period	(6,432)	1,151

The weighted average number of ordinary shares outstanding is increased by the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

11 Dividend

No final dividend has been proposed by the Directors (2021 – £nil).

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

During the 52 weeks ended 25 December 2022, the Group recognised an impairment charge of £2.3m (2021: restated impairment charge of £0.6m) due to impairment of ROU assets £2.1m (2021: £2.9m) and impairment of fixed assets £0.2m (2021: release of £2.3m). The impairment movement is due to the reassessment by each individual CGU following a change in performance and/or change in assets. The impairment calculation is sensitive to changes in the assumptions and estimates used in the underlying forecasts of future performance and cash flows.

A 1% decrease in the discount rate would reduce the net impairment charge by £1.2m, an increase of 1% would increase the impairment charge by £1.2m and a 1% increase in the growth rate would reduce the impairment charge by £1.1m.

The total carrying value of the CGUs that have been impaired in the period is £15.6m (2021: £15.4m). These have been impaired to their value in use of £8.9m (2021: £9.2m). The total carrying value of the CGUs that have been released in the period is £16.4m (2021: £11.3m).

The key judgements and estimates in the inputs in calculating the impairments are outlined in note 2(c).

Company

The Company holds no property, plant and equipment.

Prior year adjustment

During the preparation of the interim accounts, management identified a calculation error within the impairment workings for the prior year, whereby the depreciation that would have been charged had there been no impairment was not being correctly considered as per IAS 36. At this stage £1.9m was adjusted against 2021 reserves. However, on further review of the complex adjustment it was identified that the adjustment needed to be recognised in both 2020 and 2021. This resulted in an impairment release of £2.46m in 2020 and an impairment charge of £0.6m in 2021. The cumulative impact of this was £1.9m in line with the adjustment identified in the interim.

In addition, a related prior year adjustment arising from the same issue has been recognised in 2021, whereby the depreciation charge on ROU assets should have been reduced for the impairment to allow depreciation to run to the end of the life of the lease.

14 Leases

	25 December 2022 £'000	26 December 2021 £'000
Current		
Lease liabilities	1,953	2,024
	1,953	2,024
Non-current		
Lease liabilities	48,358	50,157
	48,358	50,157
	50,311	52,181
Due within one year	1,953	2,024
Due two to five years	11,386	12,371
Due over five years	36,972	37,786
	50,311	52,181

Lease liabilities are measured at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate of 4.5% and the Bank of England (BoE) base rate at the time of any lease modification or a new lease. The average rate used for modification in 2022 was 5.9% (2021: 4.6%). The lease liabilities as at 25 December 2022 were £50.3m (2021: £52.1m).

The right-of-use assets all relate to property leases. The right-of-use assets as at 25 December 2022 were £32.5m (2021: £36.0m). During the period ended 25 December 2022 the Group made a provision for impairment of the right-of-use assets against a number of sites totalling £2.2m (2021: restated impairment of £2.9m).

15 Investments

	£'000
Company	
At 27 December 2020	3,214
Share based payment in respect of subsidiary	120
	3,334
At 26 December 2021	3,334
Share based payment in respect of subsidiary	58
	3,392
At 25 December 2022	3,392

The Company's investments are wholly related to a 100% ordinary shareholding in Took Us a Long Time Limited (2021: 100% holding), a company registered in England and Wales with registered offices at 32 Charlotte Street, London W1T 2NQ. Took Us a Long Time Limited is primarily engaged with the operation of restaurants.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

16 Inventories

	25 December 2022 £'000	26 December 2021 £'000
Raw materials and consumables	922	855
Smallware inventories	1,269	1,248
	2,191	2,103

In the Directors' opinion there is no material difference between the replacement cost of inventories and the amounts stated above. Raw material and consumable inventory purchased and recognised as an expense in the period was £12.0m (2021: £8.6m).

17 Trade and other receivables

	25 December 2022 £'000	26 December 2021 £'000
Trade receivables	121	211
Prepayments and other receivables	1,577	1,249
Total trade and other receivables	1,698	1,460
Less non-current portion (Deposits)	(65)	(105)
	1,633	1,355
Company		
Amounts due from subsidiary	3,162	3,836
Total trade and other receivables	3,162	3,836
Classified as non-current	3,162	3,836

There has been an increase in the credit risk of this loan since it was advanced due to the deterioration in the market and the resulting impact on the performance of the trading company. The Company has previously made loans to the trading subsidiary of £28.2m (2021: £28.2m).

The Directors of the Company consider this loan to be classed as Stage 2 under the General Approach set out in IFRS 9. The Company has made provisions of £25.0m (2021: £24.4m) which represents the lifetime expected credit losses. In assessing the lifetime expected credit losses consideration has been given to a number of factors including internal forecasts of EBITDA, cashflow and the consolidated net asset value of the Group at the balance sheet date.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

18 Trade and other payables

	25 December 2022 £'000	26 December 2021 £'000
Trade payables	5,142	3,952
Taxations and social security	1,638	1,506
Accruals and deferred income	3,499	3,314
Other payables	2,242	1,801
Total trade and other payables	12,521	10,573
Less non-current portion (Deposits)	(128)	(80)
	12,393	10,493

Included within trade payables are £nil (2021: £0.01m) due to related parties (note 28).

19 Provisions

	25 December 2022 £'000	26 December 2021 £'000
At 26 December 2021	297	335
Dilapidations provision utilisation in the period	-	(38)
Dilapidations provision charge in the period	42	-
At 25 December 2022	339	297

The Group has historically recognised a provision of £0.3m for dilapidations for a number of sites, where the need to carry out restoration work has been identified but a full survey and commission has not been undertaken and therefore management has applied their judgment in determining the provision.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

20 Deferred tax

	25 December 2022 £'000	26 December 2021 £'000
At the beginning of the period	-	-
Profit and loss credit/(charge)	-	-
	-	-
Accelerated capital allowances	-	-
Tax losses carried forward	-	-
At the end of the period	-	-

Due to the uncertainty of future profits, a deferred tax asset of £5.3m (2021: £4.6m) is not recognised in these financial statements.

21 Borrowings

	25 December 2022 £'000	26 December 2021 £'000
Current		
Secured bank borrowings	-	313
	-	313
Non-current		
Secured bank borrowings	-	937
	-	937
Total	-	1,250
Maturity of secured bank borrowings		
Due within one year	-	369
Due in more than one year but less than two years	-	455
Due in more than two years but less than five years	-	542
	-	1,366
Future interest payments	-	(116)
Total	-	1,250

The bank loan was repaid in June 2022. While held it attracted interest at a margin of 4.5% over the Bank of England base rate. The borrowing was secured by legal charges over assets of the Group.

At 25 December 2022	146,315,304	10,451,094	59,795,496	6,061

Share Capital Reorganisation

In January 2021 Daniel Jonathan Plant was awarded 15,676,640 'B' shares in Tasty plc, which can be converted to 'A' shares subject to achievement of hurdle rates. Following achievement of the first hurdle on 27 June 2022, 5,225,546 'B' shares converted to ordinary shares.

23 Reserves

Share capital comprises of the nominal value of the issued shares.

Share premium reserve is the amount subscribed in excess of the nominal value of shares net of issue costs.

Cumulative gains and losses recognised in the income statement are shown in the Retained deficit reserves, together with other items taken direct to equity.

The merger reserve arose in 2006 on the creation of the Group.

Notes

26 Share based payments

	Weighted average exercise price (pence)	Number '000
At 27 December 2020	4.1	3,780
Lapsed	4.4	(515)
Cancelled	-	-
Issued	0.0	15,677
At 26 December 2021	0.7	18,942
Exercised	0.0	(5,225)
Lapsed	4.4	(290)
Cancelled	-	-
Issued	-	-
At 25 December 2022	0.9	13,427

The exercise price of options outstanding at the end of the period ranged between 0p and 4p (2021: 0p and 4p) and their weighted average remaining contractual life was 3.1 years (2021: 3.9 years).

Of the total number of options outstanding at the end of period 2.97 million have vested and are exercisable at the end of the period (2021: none)

The market price of the Company's ordinary shares as at 25 December 2022 was 3.8p and the range during the financial year was from 3.3p to 6.3p (as at 26 December 2021 was 4.9p and the range during the financial year was from 2.9p to 7.9p).

No option was exercised or granted in 2022 (2021: £nil). Shares of 5.2m 'B' shares converted to 'A' ordinary shares (2021 £nil) and no further 'B' shares granted (2021: 15.7m).

On 29 July 2019 options of 3.5m were granted at a grant price of 4.4p reflecting the opening share price. The options vest over three years and expire in 10 years and no other conditions are attached. A charge of £60,000 was recognised over the three years based on a volatility of 63.5% and risk rate of 0.5% using the Binomial method. The volatility is weighted on a four year basis and the risk free rate is based on risk free rate on the mid point between the vesting date and expiry.

On 17 October 2019 options of 1m were granted at a grant price of 3.3p reflecting the opening share price. The options vest over three years and expire in 10 years and no other conditions are attached. A charge of £12,000 was recognised over the three years based on a volatility of 61.6% and risk rate of 0.5% using the Binomial method. The volatility is weighted on a four year basis and the risk free rate is based on risk free rate on the mid point between the vesting date and expiry.

In January 2021 Daniel Jonathan Plant was awarded 15.7m 'B' shares in Tasty plc which can be converted to 'A' shares subject to achievement of certain hurdle rates. These 'B' shares were issued

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

at nominal value of 0.00001 pence. Following achievement of the first hurdle on 27 June 2022, 5,225,546 'B' shares converted to 'A' ordinary shares.

A charge of £181,000 will be recognised over the four years based on a volatility of 85% and risk rate of -0.05% using the Monte Carlo method. The volatility is weighted on a four year basis and the risk free rate is based on yield on a 4-year zero coupon government security at the grant date.

The 13.4m share outstanding as at 25 December 2022 comprise of the options issued in July 2019, October 2019 and January 2021. There are no other outstanding options.

27 Financial instruments

In common with all other businesses, the Group is exposed to risks that arise from its use of financial instruments. This note describes the Group's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

The Group is exposed through its operations to the following financial risks:

- Credit risk
- Interest rate risk
- Liquidity risk

The Group does not have any material exposure to currency risk or other market price risk.

There have been no substantive changes in the Group's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this note.

Principal financial instruments

The principal financial instruments used by the Group, from which financial instrument risk arises, are as follows:

- loans and borrowings
- trade receivables
- cash and cash equivalents
- trade and other payables

The Group's financial instruments apart from cash and cash equivalents are measured on an amortised cost basis. Due to the short-term nature of trade receivables and trade/ other payables, the carrying value approximates their fair value.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

	25 December 2022 £'000	26 December 2021 £'000

Total financial assets	7,188	11,321

Financial liabilities (amortised cost)

Trade and other payables	7,384	5,753
Loans and borrowings	-	1,250
Finance leases	50,311	52,181
Total financial liabilities	57,695	59,184

Company - Financial assets (amortised cost)

	25 December 2022 £'000	26 December 2021 £'000
Intercompany loan	3,162	3,836

General objectives, policies and processes

The Board has overall responsibility for the determination of the Group's risk management objectives and policies.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Group's competitiveness and flexibility. Further details regarding these policies are set out below:

Credit risk

The Group's assets and liabilities are wholly attributable to one operating segment (operating restaurants) and arises solely in one geographical segment (United Kingdom).

Credit risk is the risk of the financial loss to the Group if a customer or a counterparty to a financial instrument fails to meet its contractual obligations. The Group is mainly exposed to credit risk from rebates from suppliers, sub-letting income and trade receivables.

Trade and other receivables are disclosed in note 17 and represent the maximum credit exposure for the Group.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

The following table sets out the ageing of trade receivables:

	25 December 2022	26 December 2021
Ageing of receivables	£'000	£'000
<30 days	75	60
31-60 days	11	15
61-120 days	17	33
>120 days	127	194
Provision for doubtful debt	(109)	(91)
	121	211

The Group's principal financial assets are cash and trade receivables. There is minimal credit risk associated with the Group's cash balances. Cash balances are all held with recognised financial institutions. Trade receivables arise in respect of rebates from a major supplier and therefore they are largely offset by trade payables. As such the net amounts receivable form an insignificant part of the Group's business model and therefore the credit risk associated with them is also insignificant to the Group as a whole. Accordingly, the Company does not consider there to be any risk arising from concentration of receivables due from any counterparty.

The Company's principal financial assets are intercompany receivables. These balances arise due to the funds flow from the listed Company to the trading subsidiary and are repayable on demand. The credit risk arising from these assets are linked to the underlying trading performance of the trading subsidiary. See note 17 for further details on intercompany debt.

Liquidity risk

Liquidity risk arises from the Group's management of working capital. It is the risk that the Group will encounter difficulty in meeting its financial obligations as they fall due. The Group's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due. To achieve this aim, the Group seeks to maintain cash balances to meet its expected cash requirements as determined by regular cash flow forecasts prepared by management.

The following table sets out the contractual maturities (representing undiscounted contractual cash-flows) of financial liabilities:

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

	Up to 3 months	Between 3 and 12 months	Between 1 and 2 years	Between 2 and 5 years	Over 5 years

As at 26 December 2021	6,567	1,522	3,431	9,937	37,843

Non-current other payables are sub-let site rent deposits.

Interest rate risk

The Group seeks to minimise interest costs by regularly reviewing cash balances.

Interest rate risk arises from the Group's use of interest-bearing loans linked to LIBOR. The Group is exposed to cash flow interest rate risk from long term borrowings at variable rate. The Board considers the exposure to the interest rate risk to be acceptable.

Surplus funds are invested in interest bearing, instant access bank accounts.

Loans and borrowings

During the year the Group had a loan facility with Barclays Bank Plc.

Capital disclosures

The Group's capital is made up of ordinary share capital, deferred share capital, share premium, merger reserve and retained deficit totalling £2.0m (2021: Retained earnings £4.3m).

The Group's objective when maintaining capital is to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders. The Group is not subject to any externally imposed capital requirements. There have been no changes in the Group's objectives for maintaining capital nor what it manages in its capital structure.

The Group manages its capital structure and makes adjustments to it in the light of strategic plans. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

Notes

forming part of the financial statements for the 52 weeks ended 25 December 2022

28 Related party transactions

The Directors are considered to be the key management personnel. Details of directors' remuneration are shown in Note 8.

The Group pays fees, rent and associated insurance to a number of companies considered related parties by virtue of the interests held by the Directors in such companies. The Group also reimburses expenses incurred by such companies on behalf of the Group. Following changes to the Board in 2021, the entities below are no longer considered to be related parties.

	52 weeks ended 25 December 2022 £'000	52 weeks ended 26 December 2021 £'000
Rent, insurance and legal services charged to the group:		
- Kropifko Properties Ltd	-	(32)
- KLP Partnership	-	(28)
- ECH Properties Ltd	-	(25)
- Proper Proper T Ltd	-	(33)
Balance due to related parties:	-	11

The rent paid to related parties is considered to be a reasonable reflection of the market rate for the properties.
